

NATIONAL SCHOOL PLANT MANAGEMENT ASSOCIATION
MEMBERSHIP INFORMATION

Excellence in education through professional facility management.

nspma.org

MISSION STATEMENT

NSMPA members work across the United States to bolster safe, efficient, and functional school environments for our nation's public school students.

The National School Plant Management Association (NSPMA) promotes excellence in education through professional facility management and provides leadership and collaboration for facility managers in K-12 public schools throughout the country.

NSPMA offers a unique nationwide perspective and network that will enhance your career, grow your network, and think big-picture. Bringing innovation to the forefront, our service industry strives to support and guide schools in research and best practices.

THE VALUE OF MEMBERSHIP

NSPMA Membership provides the opportunity to join a growing network of school and facility management industry professionals.

MEMBER BENEFITS:

- Discounted professional development and leadership opportunities through webinars, seminars, training, and our annual conference.
- Join advocates and policy-makers to address educational and environmental needs.
- Participate in industry research to help enhance national systems.
- Execute best practices to encourage sustainability.
- Exclusive subscription to industry list serve to network, support one another and exchange best practices.
- National job bank to share open positions in the school plant management field.
- Monthly eNews containing the latest innovations and updates in the school plant management industry.

STATE AFFILIATIONS

State affiliates conduct their own meetings, special events and educational opportunities. All affiliates come together for the annual conference.

The annual conference provides an outstanding opportunity to join professional development trainings and engage with a wide range of industry experts. Members, vendors, stakeholders, and directors meet to collaborate on the ever-changing environmental needs within the school buildings our children learn and play.

Conference attendees and partners will network, collaborate and learn together. You'll engage with the best resources from across the country in our ever-changing industry. Programs are developed with industry experts presenting fresh and timely content; there's something for everyone.
